

Hepatitis C virus Core Antigen antibody [1E5] (Rhodamine)

Cat. No. GTX22585

Host	Mouse
Clonality	Monoclonal
Isotype	IgG2a
Applications	IP, ELISA
Reactivity	Hepatitis C virus

Package
50 µg

Applications

Application Note

Optimal working dilutions are best determined by the investigator.

Product Note This antibody is specific for Hepatitis C Core Antigen.

Properties

Form	Liquid
Buffer	PBS
Preservative	0.01% Sodium azide
Storage	Store as concentrated solution. Centrifuge briefly prior to opening vial. Store at 4°C. DO NOT FREEZE. Protect from light.
Concentration	1 mg/ml (Please refer to the vial label for the specific concentration.)
Immunogen	Recombinant fragment, corresponding to amino acids 1-80 of Hepatitis C Core Antigen.
Purification	Protein A purified from ascetic fluid.
Conjugation	Rhodamine Wavelength Rhodamine B

Note

For laboratory research use only. Not for any clinical, therapeutic, or diagnostic use in humans or animals. Not for animal or human consumption.

Purchasers shall not, and agree not to enable third parties to, analyze, copy, reverse engineer or otherwise attempt to determine the structure or sequence of the product.
